ABOUT

Table to Table is thrilled to announce our first annual conference, **Partners in Good Health**, in May 2024! The inaugural conference, hosted by Felician University on their Lodi campus, will bring together our agency partners to explore **the critical connection between food and health**, and to learn together about best practices in supporting better health for our neighbors through access to nutritious food and other resources.

We anticipate an audience of 200-250 agency partner representatives: leaders, program directors, and other staff members, board and volunteers from regional nonprofits, including food pantries, community kitchens, shelters, and group homes **throughout Bergen, Essex, Passaic, and Hudson counties.**
