

25 YEARS OF IMPACT

Since our inception in 1999, Table to Table has rescued enough food to provide **311,228,930 healthy meals**. That equates to **109,122 tons of food** kept out of landfills, and millions of our neighbors receiving free, nutritious food they couldn't otherwise afford. In the process, we've saved over **73,000 tons of CO2eq** from impacting climate change.

LOOKING FOR THE FUTURE

We know that too many of our neighbors struggle to afford healthy food. At the same time, there is a national movement to drastically reduce food waste. As New Jersey's first and largest food rescue nonprofit, **TABLE TO TABLE REMAINS DEEPLY COMMITTED TO BRIDGING THE GAP BETWEEN FOOD WASTE AND FOOD INSECURITY.**

WE CONTINUE EXPANDING OUR NETWORK of food donors, agency partners, supporters, and volunteers to ensure that fresh, nutritious food is not wasted, and that more food reaches those who need it most. We will also sharpen our focus on delivering **FOODS THAT ARE CULTURALLY APPROPRIATE**, support **BETTER HEALTH OUTCOMES**, and **NOURISH OUR COMMUNITIES**. And, as our growing community of **'FOOD RESCUE HERO' VOLUNTEERS** magnifies our impact, we will be able to source more nutritious food, support new partners, and reach more neighborhoods where resources are scarce, and need is high.

**Our work will not be done until there is no food waste, and no hunger, in our region.
Pull up a seat to our Table and join us!**
