

Rescuing Food. Reducing Waste. Relieving Hunger.

2024 IMPACT REPORT

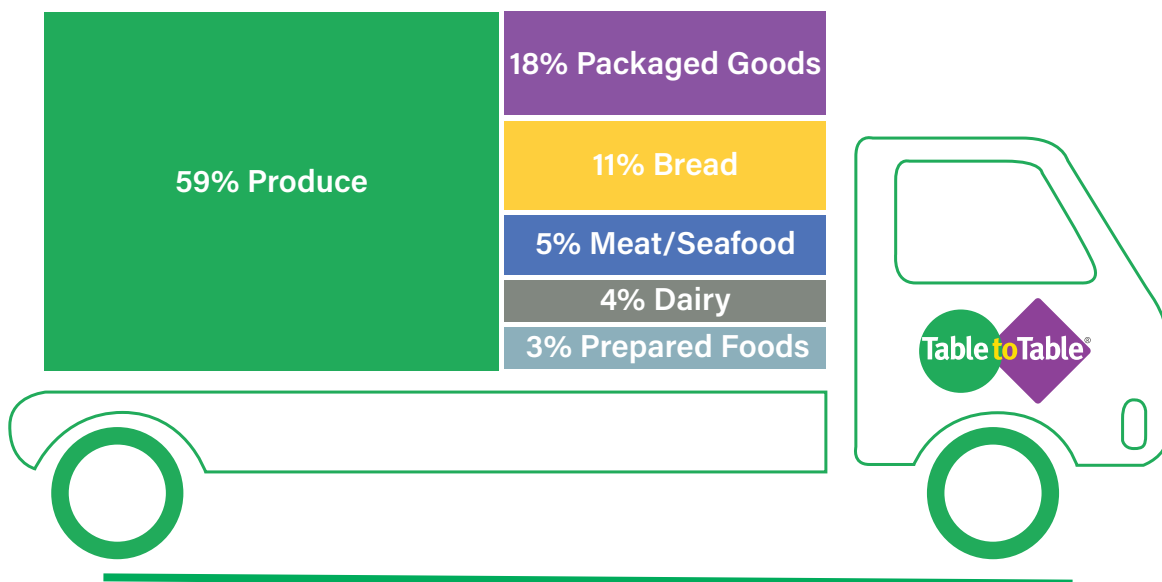

OUR MISSION

It is estimated that more than **3 BILLION POUNDS of food are wasted** each year in the State of New Jersey. At the same, nearly **1 MILLION NJ residents – including over 250,000 children – face food insecurity.**

Table to Table bridges that gap in northern New Jersey. Every day, **we rescue surplus, fresh, nutritious food** that would otherwise go to waste, and deliver it for free to community partners **servicing our neighbors in need.**

2024 OUTCOMES

23,159,271 POUNDS OF FOOD RESCUED

Our **I-Rescue App** reached new heights with **8,478 rescues by 308 volunteers** picking up and delivering **1,853,679 pounds** of fresh, perishable foods. We also expanded our app into **Morris County**, thanks to a generous grant from Impact 100 Garden State.

Thanks to the support of 12 agency partners, we launched our **Community Advisory Board**, creating deeper relationships within our communities, and ensuring we can meet the emerging needs of changing populations.

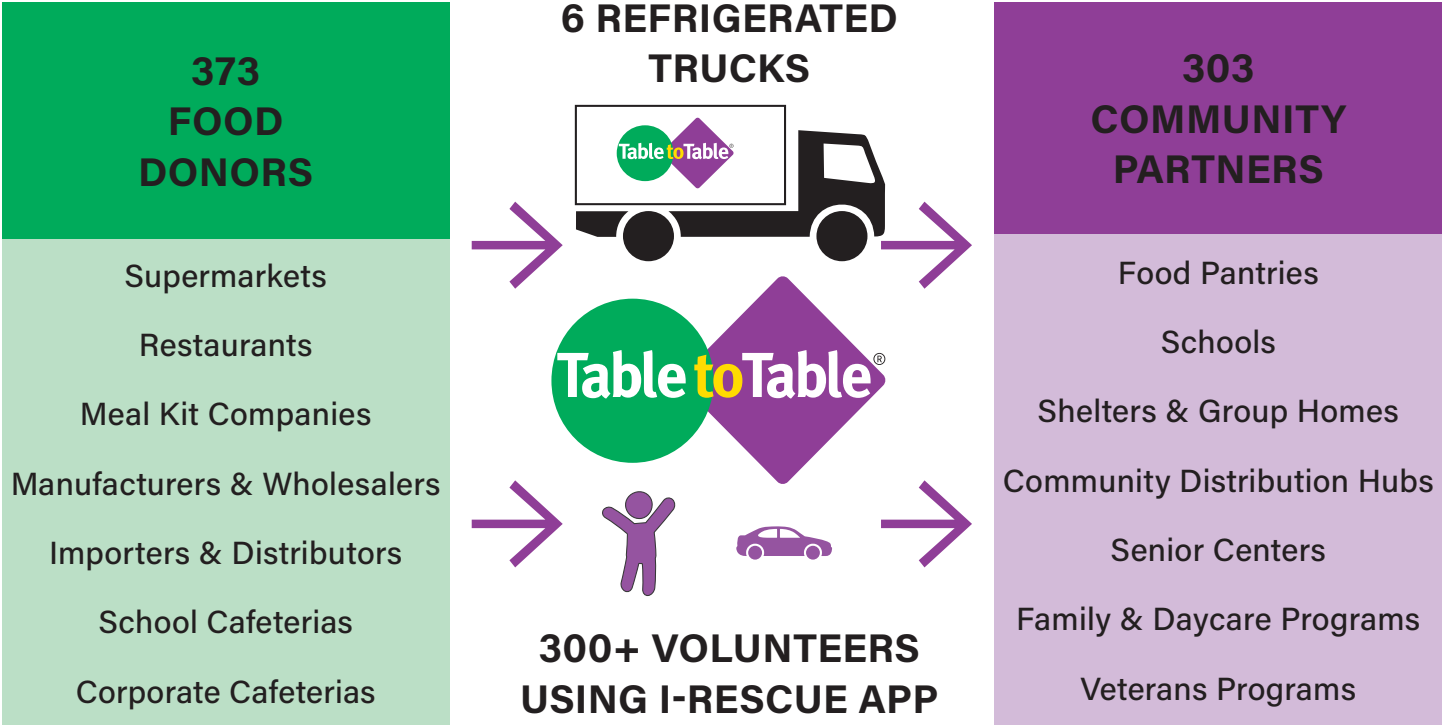

We welcomed dozens of food donors, including local restaurants, schools, and innovative partners like Hudson News & HMSHost at **Newark Airport**.

Our inaugural **Partners in Good Health Conference** united community agencies for a day of learning & sharing best practices on hunger, nutrition, & health.
